

How To Apply Mascara

APPLICATION TIPS

1. For the best results, it is advisable to curl your lashes before mascara application. Be sure the pads on your eyelash curler are not dried out in order to avoid possible breakage.
 2. Starting at the base of the lash line, apply the eyelash curler and squeeze firmly for five seconds for a gentle curl, ten seconds for a more dramatic curl. Release. Move the eye lash curler half way up your lashes and repeat the curl time you had previously used. Apply mascara immediately
 3. before you curl your other lashes in order to set the curl.
 4. Before you begin mascara application, always examine your mascara wand after you pull it out of the tube. If there is a glob of mascara adhering to the end of the wand or on the bristles, dab this off with a tissue before you apply it.
 5. After you curl your lashes, start application at the base of the lash and as you move upward slowly wiggle the wand back and forth. This creates a more even application as well as separates
